AVG 2012 for Business

Delivers More. Demands Less.

We Protect Us™

Why work with us?

We Protect Us™

AVG is 98 million active users working together, sharing threat information to keep each other safe.

Together **WE** keep 240 new viruses off our PCs every minute

Together **WE** remove over 100 million threats every single day

Every six seconds someone new joins **US**

Every six seconds someone recommends **US**

Join our community today to learn how **We Protect Us™**

We are the champions of small business security

• Our products are designed exclusively with the small business in mind, ensuring they are high on protection, light on resources and easy to use

• AVG has considerably higher levels of satisfaction amongst small businesses compared to other major brands

• We're rated #1 for ease of use by Tolly*

• We're rated 5★ for value for money by SC Magazine

• That's why 1 in 4 SMBs already trust AVG to protect their business**

The AVG difference

AVG is one of the world's most recognizable names in online threat protection, with 98 million businesses and consumers around the world relying on us to keep them safe. We combine multiple layers of protection so that you won't have to worry about security threats to your data or to your business. Here are some of the key features of AVG 2012 that help you focus on driving your business forward.

Award-winning protection for your business

AVG LinkScanner® comes with all our security products, keeping your business protected from threats that can be hidden on any website.

AVG Identity Protection™ uses the latest behavioral technologies to identify software that behaves strangely and stop it before it can do any damage to your business.

AVG's Social Networking Protection is new for 2012 and unique to AVG. Links that are exchanged within Facebook and MySpace are automatically checked in real time so that your business is protected.

Liberate your time so you can focus on your business

AVG Smart Scanning scans while you're away and runs in low-priority mode when you're working.

AVG Remote Admin Console enables you to install and deploy simply and rapidly across your business network without leaving your office.

We win awards

Our community says:

"AVG has helped significantly reduce approximately 37% unscheduled downtime and has freed customers to get on with the business of business, not crisis."
Pam Rodgers, Managing Director, PRR plus

"Now that everyone has experienced how much more efficient AVG is at work, we've been inundated by colleagues wanting us to uninstall their existing software on their private home laptops and install AVG for them."
Adrian Collinson, Head of IT, Force India

"AVG never lets anything in. It just seems to catch everything. It uses minimal resources while it's scanning. That makes me a lot more productive as well as everyone else that uses a machine at the school district. It basically eliminates any downtime."
Al Allen, Network Administrator/Technology Director, Maricopa Unified School District

"We spend 90% less time managing anti-virus with AVG. The efficiencies we gain from using AVG mean valuable time we can spend on other IT projects to meet the needs of our constituents."
John Allman, Technology Director, City of Brentwood

"AVG offers a well-featured network protection package that is easy to manage and looks good value for smaller businesses. Plenty of security features, good centralized management with group policies, improved installation and very good value."
Dave Mitchell, SC Magazine

"Testing showed that, with AVG, users can save valuable time in managing their security solution – time that can be better used to focus on their business. With AVG, they can rest assured that they have a solution that is one of the easiest to use for most common tasks, such as running scans, installing across a small business network, etc."
Tolly Test Report

"AVG brings Virgin Digital Help the brand of choice for those who know what's what in Internet Security along with a loyal client base of 98 million users created almost entirely through word of mouth."
Tim Dowling, Marketing & Customer Operations Director, Virgin Digital Help

"Internet security shouldn't take up time – it's important, but if it just gets on and does its job, and has been designed well, you should be able to forget about it. That has been our experience with AVG over the past 5 years."
Simon Mills, Network Manager, Waingels

"AVG Anti-Virus Business Edition is a great product. If you are looking for a dependable, full-featured anti-virus solution, with centralized management, that is easy to configure, AVG is a great option. You can have it installed and up and running across your domain in just a few hours."
Jim Sisco, Network Administrator, R&O Construction

We Protect Us™

Introducing AVG 2012 for the smaller business

	AVG Internet Security Business Edition 2012	AVG Anti-Virus Business Edition 2012	AVG File Server Edition 2012	AVG Email Server Edition 2012	AVG Linux Server Edition
File Server Protection	✔	✔	✔	✔	✔
Workstation Protection (laptops, PCs)	✔	✔			
Workstation Anti-Spam (laptops, PCs)	✔				
Mail Server Protection	✔			✔	✔

Which protection is right for you?

"Emails and the internet are our lifeline...without them I can't grow my business"

AVG Internet Security Business Edition 2012 is perfect for the growing, internet-active business. You can be confident of a better email experience without compromising your security thanks to AVG Anti-Spam and AVG Email Server protection. AVG Internet Security Business Edition 2012 doesn't clog up your network with spam, giving you a safer business and faster communication.

"I don't want my protection to interfere with my day job"

AVG Anti-Virus Business Edition 2012 gives you more protection and less hassle by taking away the frustrations, delays and decisions that you just don't need. Rather than being a complex enterprise solution, we give you a simple experience that's designed for small business.

"I can't afford to lose access to my data"

AVG File Server Edition 2012 provides dedicated, award-winning protection for Windows file servers. Keeps your network clean, clear and fast, so you don't lose access to those essential files.

"My network slows down because it is clogged with spam"

AVG Email Server Edition 2012 contains AVG Email Server Protection and AVG Anti-Spam. Spam emails are blocked from entering your business network, so you can keep your email server clean, clear and fast.

"I can't afford to lose the data and emails on my Linux Server"

AVG Linux Server Edition blocks spam from clogging up your Linux server and keeps your data safe.

"We're paying too much for protection"

Our Business Edition range has been rated 5★ value for money by SC Magazine**
